ADOPT RESOLUTIONS

The Ada Bar Association held a meeting this morning and effected a reorganization. W. C. Edwards tendered his resignation as president and E. S. Ratliff was elected to succeed him. Leslie Maxey was elected vice-president and C. F. Green, secretary. B. H. Epperson, F. P. Lieualen and C. A. Galbraith were appointed as a committee to draft by-laws for the organization with orders to report at the next meeting to be held March 18. Hereafter the association will meet every two weeks and a regular program will be carried out at each.

The meeting this morning adopted by a unanimous vote a resolution requesting Senator Roddie to use all possible influence to secure the passage of the bill creating the office of district attorney. It also adopted a resolution declaring in favor of making Pontotoc and Seminole counties a separate district with T. D. McKeown as judge.

CONTEMPT CASES TO

to the criminal court of appeals, was the holding of Justice Williams in the case of William Smythe against Mattie A. Smythe, appealed from Creek county. The case as pending before the supreme court was dismissed. Action arose over Smythe's refusal to bring his child into court in response to a writ of habeas corpus.

The corporation commission is sustained in its order requiring the Frisco railroad company to erect a \$10,000 brick or concrete depot at Tahlequah. The court holds that the only limit to the commission's authority is that the order must be just and reasonable, and the one under consideration is both.

Confederate Home Board Meets.

Ardmore, Ok., Feb. 28.—The state Confederate Home Board met here today in called session. Dr. D. M. Halley, president, presided. Applications of G. G. Muchanan of Chickasha, A. M. Crow of Ada, I. Mann of Oklahoma City, John L. Galt of Ardmore and Walter Coe of Mannsville for superintendent of the home were received. The appointment will be made next Tuesday at the regular semi-annual meeting. The board has asked the legislature for \$10,000 to be used in the construction of a sanitarium.

Mrs. C. H. Ennis arrived from Shawnee this morning and is the guest of Mrs. Melissa Bills.

W. A. RILEY FOR ALDERMAN

OF SECOND WARD

After considerable urging on the part of his friends W. A. Riley has consented to become a candidate for alderman of the Second Ward. Mr. Riley has been a citizen of Ada comparatively short time, coming here from Birmingham, Ala., to manage the Coca-Cola bottling works. However, during his residence here he has gained recognition as a business man of real ability and has won many friends among the citizens of Ada. He is not in any sense a seeker of this office, but it is a position that some one must take, and if elected, he will make a first class alderman.

OKLAHOMA BOY SOLVES

PROBLEM OF TELEPHONE

Longdale, Okla., Feb. 28.—Willard Anderson, 16 years old, the son of Abe Anderson of this place, has secured a patent on a new telephone contrivance, which bids fair to make him both fame and fortune. The instrument, which is a repeater for long distance telephoning, makes it possible to talk as clearly at distances aggregating thousands of miles as at comparatively short range. The instrument is so arranged that it repeats and compounds the volume of the voice, making it louder and clearer than originally.

Those who have tested the youth's invention say that it will solve the problem of long distance telephony.

The lad has long been interested in electricity and its appliances, and the invention is the result of several years study.

He is now endeavoring to secure financial backing to place his invention before the public and has already received several offers for it.

TEXAN FOUND LIFELESS ON

KATY TRACK NEAR ATOKA

McAlester, Okla., Feb. 28.—Claude L. Conner of Ranger, Tex., was found dead within 100 feet of the Missouri, Texas and Kansas railway near Atoka, Okla. Coroner rendered verdict of cause of death unknown. A watch, \$85 in money and ticket reading from Dallas, Tex., to Ada, Okla., was found on the body. The body was taken in charge by a local undertaker.

LEGISLATIVE HAPPENINGS

MUSKOGEE FAIR BILL REVIVED. EDUCATIONAL BILL PASSES HOUSE.

Oklahoma City, Feb. 28.—There was a lively battle in the senate today over bills proposing to establish state agricultural and live stock expositions midway between Clinton and Arapaho, and at Muskogee, and while the Clinton-Arapaho project may be said to be in a rather precarious condition, owing to numerous amendments, the Muskogee enterprise although trimmed somewhat, tonight has the best of the contest.

At the outset there appeared to be something of a combination between the Clinton and Muskogee people to the end of putting both bills through over the opposition of Oklahoma City which wanted no tampering with the legislature in the state fair and exposition matter. This town has what it denominates the "Oklahoma State Fair."

Mitchell Amendment Lost.

Muskogee's normal strength was shown in committee of the whole when the Mitchell amendment to insert Clinton was defeated by a vote of 13 to 17. An amendment to include Hobart was defeated, as was an amendment by Senator Memminger, which would permit any county in the state to have advantages of the act, when such county organized a fair association with 100 members.

Realizing that the bill was slated to go through the committee of the whole, friends of Oklahoma City resisting public recognition of another exposition or state fair, sought to trim it of every feature that contemplated state aid or support, financial or otherwise, for the East side project.

In place of the bill declaring that an exposition was established at Muskogee, Senator McMechan wanted it to read that Muskogee would be permitted to establish one, and in place of the Governor appointing the board of directors he wanted it localized by giving that authority to the Mayor of Muskogee.

Enid Amendment Adopted.

These amendments, as well as others seeking similar results, were voted down, but Senator Goulding, who claimed for his town a state live stock exposition, secured adoption of an amendment, recognizing Enid for the live stock exposition and reducing Muskogee to an agricultural and mechanical and industrial exposition. The vote was 15 to 14 and as it was the first inroad made in the Muskogee bill, Oklahoma City people applauded.

As the bill goes to the senate with a recommendation for passage, it provides that in no circumstances shall an application be made or state tax be levied for support of the Muskogee fair, neither shall the state be responsible for any of its obligations.

Horse Theft Penalty Increased.

The senate also passed the Peebly bill, increasing the penalty for horse theft from three to five years and added a provision that theft of poultry to the value of \$5 constitute a felony, punishable by imprisonment

in the penitentiary from one to three years.

The house passed the senate joint resolution submitting to vote of the people a substitute for Section 9 of Art. IX of the constitution, and by an amendment by Mr. Webb of Choctaw the proposition is to be voted upon at a special election Tuesday, April 25.

Mr. Moore of Coal endeavored to have the resolution indefinitely postponed.

Mr. Webb and Mr. Barret urged that adoption of the section was the only opportunity to get state development by railroads. They stated

that had the people been able to vote on the matter without other questions being in the way, the proposed repeal in the last general election would have carried.

Mr. Moore of Coal county, opposing the resolution, said the desire of the people was to see the railroads obey the laws and pay their taxes. The proposed substitute for Sec. 9, he said was but the entering wedge that sooner or later would overthrow the constitutional fabric of the state.

The motion to indefinitely postpone was voted down. The same fate met an amendment by Mr. Jones that the proposed section should not become a part of the constitution until it had been approved by a majority of electors of the state as measured by the vote for governor in the last general election.

It developed during the debate that the special election would cost about \$80,000.

The resolution was passed finally by a vote of 82 to 14, the negatives being Ashby of Pushmataha, Brooks, Broome, Lenox, Lewis, Lindsey, Moore of Coal, McDuffey, Moss, New, Nisbett, Rolland, Stockton and Taber.

House Passes Education Bill.

By a vote of 79 to 1 the house passed finally the administration bill creating a state board of education, to be composed of the state superintendent and six to be appointed by the governor. A secretary is provided for at \$2,000 per year and is designated by the board instead of by the superintendent.

Mr. Aiken's amendment requiring the board members to have three years' teaching experience, two years being in Oklahoma, was defeated. The new board was given supervision of

all educational institutions save those now managed by the State Board of Agricultural.

Medical Practice Bill Killed.

By vote of 43 to 37 the house killed the medical practice bill from the Senate, which proposed to eliminate chiropractors and Christian Scientists. The senate passed Senator Vandevanter's resolution urging congress to enact the Canadian reciprocity program, also a resolution asking the War Department to hold the next military tournament, similar to that held in Dallas last year, in Oklahoma City.

Conference Report Agreed Upon.

The conference committee upon the amended prohibition law bill tonight agreed to report that the so-called removal section as enacted by the senate be adhered to. This only permits the governor to suspend a county officer for failing to enforce the prohibitive law after sworn charges have been filed against the officer, and the matter has been heard by a referee appointed by the governor, and found to be true. His removal is then only through the courts.

The senate's provision that a person could have one quart of liquor in his place of business or place of amusement over which there was no question, the conference committee recommends be eliminated. Three-gallon allowance in residences, however, is not disturbed. The provision disfranchising for five years those convicted for the second time of violating the law is also to be stricken out.

Advocates of rural high schools won their point when the house tonight passed the Peebly bill appropriating \$2,000,000 out of the public (Continued on Page Four)

THEY ALWAYS COME BACK.

When a man moves from one of
the older states to Oklahoma it is
not long until he begins to sigh for
the scenes of his earlier life. A great
wave of homesickness sweeps over
him and he fondly imagines that if
he were only back there again his
happiness would be complete. He re-
members only the bright side of his
old life. He finally disposes of what
he has and betakes himself to the old
home. Somehow it does not seem like
the place he left. The town is slower.
Its people have not the hustle
he saw in Oklahoma. The red hills
look redder than ever and closer to-
gether. The water from the old
spring does not possess the flavor
he used to. The best farms look like

rather poor ones to him now and
the carloads of fertilizer seem
strange to him. He begins to wonder
what brought him back, anyway, and
it is not long until he is sighing for
the broad fields of bustling Oklaho-
ma. Then comes another move. He
comes back to Oklahoma a wiser and
more contented man and gets down
to business. It is only a few years
after that until he is on his feet fi-
nancially and one of the live boosters
for his adopted state.

ARTICLE 9, SECTION 9.

The News congratulates the legis-
lature on the passage of the reso-
lution again submitting to the vot-
ers of the state the repeal of Article
9, Section 9, of the constitution. It
is now recognized on all sides that
the section is too drastic and is re-
tarding the development of the state.
The last legislature also submitted
a proposition for its repeal but some
of the interests butted in with an-
other amendment that would have
tied the hands of the corporation
commission hard and fast, and natu-
rally it was voted down most over-
whelmingly. However, it had the bad
effect of so prejudicing the people
against the whole deal that when
the legislative amendment came up
in November so many refrained from
voting on it that it also lost. The
sentiment of the voters was shown,
however, by the fact that 27,000 more
votes were cast for the repeal than
against it, the measure losing only
because it did not receive a major-
ity of all votes cast at the general
election. This time the repeal will
have easy sailing for it will be vot-
ed on at a special election April 25
and being the only question submit-
ted then will be certain to receive
the requisite majority.

The congressional committee that
investigated the Gore bribery charges
has applied a liberal coat of white-
wash to his enemies, just as had been
anticipated, and also attempted to
besmirch the character of the sena-
tor. No matter what the verdict of
the committee is, the verdict of the
citizens of Oklahoma familiar with
the facts in the case, is an unquali-
fied indorsement of his course.

It begins to look as if Haskell and
Owen will not have the senatorial
arena to themselves. Bob Williams
of Durant is said to be arming himself
to take part in the fray, and if he en-
ters the scrap will be a hot one
from the jump. Whether he wins or
loses his opponents will know that
he has been in the fight.

March came in like a lion all right,
and so did the bill collectors. Ac-
cording to the old superstition the
month coming in thus will pass out
like a lamb, but it is a pretty safe
bet that some bill collectors did not
pass out in that manner from some
places in Ada.

If this issue of the News is below
the average our readers must blame
the bill collectors. They have kept
the editor on the jump all day and
therefore he has not had the oppor-
tunity to see much of anything else
that might have been going on.

The re-election of Hounshell as
chief of police will mean a consid-
erable emigration from the town of
an element that does not find life
very pleasant while he is on the job,
and who are now waiting to see
how the election is going.

Interesting Facts Regarding the Lab- oratory of the Chamberlain Med- icine Co., Des Moines, Ia.

A person purchasing a bottle of
Chamberlain's Cough Remedy has no
conception of the magnitude of the
laboratory where this medicine is
manufactured. The machinery and
apparatus used in its preparation was
designed especially for the purpose
and cost several thousand dollars.
Europe, South America and the United
States supply the various ingredi-
ents of this remedy, and only the
highest obtainable quality is used.
No pains or expense has been spared
in making it as nearly perfect as
possible.

A force of helpers representing
homes enough to populate an aver-

which is usually overlooked in cal-

this kind, ranks as one of the best
in the state, and is thoroughly equip-
ped with automatic presses and fold-
ers of the latest improved type. Here
enough print paper is used in one
year to spread over ten farms in 160
acres each, upon which is printed
advertising matter, directions and la-
bels in twenty-eight different lan-
guages and dialects. Enough lumber
is used in making cases in which the
medicines are shipped to build an

BEAUTY AS A TOWN ASSET

Is So Declared in Decision Handed
Down by Colorado United States
District Court.

Within a few weeks, for the first
time in this country, the scenic set-
ting of a town has been adjudged an
asset, and as such, given the protec-
tion of the United States district
court. It was in the case of the Em-
pire Water and Power company
versus the Cascade Town company,
says Franklin Clarkin in Success Mag-
azine. The decision, rendered by
Judge R. E. Lewis, at Pueblo, Col.,
prohibited the Empire Water and
Power company “from using, for the
purpose of generating power, water
which forms the chief scenic attrac-
tion of the mountain canyon at the
mouth of which the town of Cascade
is situated.”

There have been tumults about Ni-
agara, but they were sentimental. In
this case there was the clear-cut is-
sue as to whether the cascades at
the foot of Pike's Peak, giving the
town name and character, could be
put to “beneficial use” by harnessing
them to electric motors. Condemna-
tion proceedings to divert the water
for power were resisted by the town
of Cascade, on the ground that diver-
sion of the water would mean “de-
struction of the town's chief asset.”

It was put forward that, in making
for scenic beauty, the water was al-
ready being put to “beneficial use”
within the meaning of the law, since
it drew many people to the city, there-
fore was not subject to condemnation
proceedings for mechanical power. This
was the view upheld by the
United States district court.

SOCIETY MEETS REAL NEED

Plenty of Opportunities for Active
Work in Every Town, How-
ever Small.

Every community now without one
should organize a civic improvement
society at this time, for during the
winter the most active and effective
work is done. At the outset, or in-
deed at all times, it is best not to
cumber the organization with many
rules, else the restrictions will be
so many and so hard to live up to
that many members become discour-
aged at the start. But one rule is
really needed, and that is every mem-
ber agrees to devote some time per-
sonally to the work of the society,
either in gathering funds, superintend-
ing work or other active committee
duties. There are plenty of oppor-
tunities for active work in every small
town, and no resident need go out of
his own premises to note some sur-
rounding spot that merits more or
less attention in order to elevate the
general tone of the neighborhood.
Has your community a live society?
If not, cannot you be the organizer of
one? Our best communities, those
that prove most attractive to home
seekers, have each had a live society
for years. Without at least one no
place makes a healthful growth.—

SCORE THE AMERICAN CITY

Writers in Success Magazine Assert
They Are Rich in All Things
Save Beauty.

In the last hundred years the growth
of American cities has been marvel-
ous, says Franklin Clarkin in Success
Magazine. More than one-sixth of the
number of the largest cities of the
earth are now American cities. Phil-
adelphia is more impressive, as to
population, than Constantinople. Bos-
ton outranks Madrid, as Cleveland
does Hong Kong. Chicago arose from
a name to a place all but equaling an-
cient Tokyo in numbers of people as-
sembled. They are rich, these young
cities, rich beyond the capitals of king-
doms—in every way save that which
wins the best of the senses.

“Most of our seaboard cities,” de-
clares E. H. Blashfield, an artist, “are
practically far older than Athens or
Florence or Venice when they began
to clothe themselves with beauty as
with a garment. We are richer, more
prosperous, more peaceful; we have
no soldiers to pay, no enemies to fear,
no princes to bribe, no factions to
watch; and yet we are not beautiful.
We are not even picturesquely and
grimly ugly, like London; we are only
shoddy and commonplace and lacking
in individuality.”

To Beautify Black Country.

It was resolved at a meeting in
Birmingham of the South Staffs and
Warwickshire Institute of Mining En-
gineers to support an application by
the Midland Reforestation association
to the development commissioners for
a grant toward the cost of acquiring
and planting thirty-six and one-half
acres of land at Morley and 144 acres
at Brentley, near Walsall, says the
London Chronicle. The association
believed that the planting of old col-
liery sites would help to transform
into beauty what were now serious
eyesores, would render productive
lands now useless and find work for
the unemployed.

CORNER TWELFTH AND BROADWAY

Says He Knows Better.

Lawrence, Okla., Feb. 25, 1911.

Editor Ada News.

Dear Sir:—The other day I came
across one of your late issues con-
taining an article contrary to truth
in connection with the financial man-
agement, pertaining to the socialist
administration of Milwaukee. Figures
can be made to state colossal pre-
varications.

Many of the sums you mention can
only be expended after due legal per-
mission by the state of Wisconsin.
Bills are now before its legislature
covering such expenditures for mu-
nicipal improvements.

Improvements by individual or po-
litical territorial units are not a
waste. Milwaukee's socialists do not
advocate the waste of public mon-
ey. The fact that the socialists car-
ried also Milwaukee county shows
substantially that the wage slaves
are satisfied that their interest is
best conserved by the exponents of
their class interests. The former ad-
ministration spent \$80,000 for park
improvements in the district of the
skinners of labor. The appropriation
of greater monetary out lay in this
direction is for parking the residen-
tial districts of the poor toilers.

Do you think that God made trees,
shrubs, grass and flowers only for
those who cannot enter his kingdom
any more than an Ada grafter can
“rollin” through the eye of a needle?

But how about unnecessary ex-
penditures in Ada or Pontotoc coun-
ty? You do not know of any? Say,
when certain of your political faith
offer a socialist an “inducement” of
\$2000 to forego his party principles
and run for county commissioner on
your ticket against a Rinard, is that
rollin' in an “Ideal.”

I certainly would be very much sur-
prised to learn that alleged grafters
spent \$2000 for a civic ideal.

Money is spent to make money.
Business men spend it for that pur-
pose and so do alleged grafters. The
one for legitimate purposes, the other
otherwise, as reported. It would
do my heart good to see you wade in
and uncover some of the home slime.

I am sure it would help the toil-
ers, urban and rural, considerably if
you did. Now, you know it would.
But that would not be business.
Would it?

I am afraid that your conceptions

S. M. Shaw is one of the old time advertisers in the columns of the News and he is showing his satisfaction by largely increasing his space. The first of his new line of ads appears in this issue and will be followed by others each with a message to the buying public that will save money to the purchasers if they will read carefully what he has to say to them.

Call at the Grand Leader for children's suits or knee pants. Best values at lowest prices. 278-tf

The Surprise Store has begun a line of advertising in the News that is designed to give the public just a few ideas of the many bargains he has constantly on hand. Mr. Simpson has built up a fine trade during the past few years and being an ambitious man naturally wants to increase it as time goes by. Read his ads as they appear and then tell him about them when making your purchases. He will make good every promise he makes the public.

Benediction—R. W. Allen.

Mrs. Euchley Dead. After an illness of only about a week of pneumonia, Mrs. Eveline Euchley died at the home of her son-in-law, Mrs. L. E. Mitchell, about 11 o'clock last night. The funeral services were set for 4 o'clock this afternoon, Rev. J. D. White to conduct them.

Deceased was seventy-two years old. She was a consistent member of the Presbyterian church and was loved by a large circle of friends who knew her best. She is survived by her son who lives near town and by her daughter, Mrs. L. E. Mitchell. To them the News extends its deepest sympathy in their hour of bereavement.

Sid Reidel Dead.

About 10 o'clock last night Sid Reidel died at the Hartman & Faust sanitarium. About a week ago he was taken suddenly ill in a barber shop, suffering a number of rigors. He was taken in charge by a number of friends who have since looked after him. His brothers in Arkansas have been notified of his death and pending their arrival the body will be held. His parents are said to be living in Louisiana.

Deceased was about thirty-four years old and had lived in Ada about eight years. He was a man who was most loyal to his friends and his untimely death is regretted by all.

Man at Shawnee Boiled to Death.

Shawnee, Okla., Feb. 28.—Striking his toe against an obstacle, a plunge downward head foremost into a tank of boiling lye and going clear under with his entire body, coming out by his own effort, blinded, his eyes boiled white and his flesh cooked so that it came off in spots when his clothing was removed was the awful fate of Elmer Pierce at the Rock Island shops this morning at ten o'clock.

Pierce is a boiler maker's helper and was working in Mr. Van Bogart's tank gang. He had left the gang to take some tools to the blacksmith shop for sharpening, and on his return from the shop going north ward he came in the vicinity of the lye tank which is used to take the oil and grease from the irons in the yard.

The water in the tank was boiling at the time and the lid, which is an iron one raised on a pulley with a counterbalancing weight had been lifted fully back and up, and the steam lying low in the rainy atmosphere of today prevented his seeing the tank and a box fixed in the ground near by probably caught his toe, resulting in the catastrophe.

The tank had been opened to put a lot of greasy irons in it and was still open.

The dimensions of the iron tank are 7 feet long, four feet wide and five feet deep, and contained at the time four feet of boiling water into which 200 pounds of caustic soda had been put.

How he ever got out of the boiling water unaided is beyond understanding as he must have been in awful agony and blind as well, but he was standing groping the empty air when seen by other workmen.

The ambulance at the city hospital was immediately ordered and he was taken to it for treatment, although it seems to be impossible that he should survive.

He lives at 201 North Broadway, and it is said his wife is in a delicate condition.

The tank into which he fell is flush with the ground.

THE DAY IN THE DISTRICT COURT

Yesterday afternoon the negro, Bud Davis, alias D. Perry, was found guilty of grand larceny in connection with a pair of pants containing a twenty dollar bill. His punishment was left to the discretion of the court and has not been fixed yet.

This morning Charley Baker was tried before J. M. King as special judge on a charge of shooting at Sid Berninger at Allen. On suggestion of the county attorney the court instructed a verdict of not guilty.

Judge Rainey was expected on the afternoon train to preside during the absence of Judge McKeown but he failed to arrive.

A Tainted Deal.

"Senator Elkins made his \$33,000,000 honestly," said a Washington correspondent. "Hence he had a good deal of contempt for tainted money." "Senator Elkins was talking to me one day in the capitol when a millionaire passed who always admits frankly that his millions carry a taint. The senator, smiling scornfully, said the man reminded him of Bige Brown.

"Bige," he explained, "lived in Elkins. Meeting him one day in the main street, the senator said:

"Bige, do you know of anybody that's got a horse for sale?"

"Bige, chewing a straw, gave the senator a patronizing smile.

"Well, senator," he said, "I guess Bill Hurst has. I sold him one yesterday."—Washington Star.

Some unthinking people may confuse you by arguing that the store which has no "advertising expense," can sell more cheaply! You know, however, that—excluding advertising expense—all stores have certain fixed expenses in common. These include rents, lights and heat, clerks and employees. These expenses have to be EARNED. The store that makes but a hundred sales a day must earn these expenses through the profits on these 100 sales. The store that by adding something to these fixed expenses by advertising, makes 500 sales a day, may prosper on a smaller per-sale profit! Would you rather pay one hundredth part of a fixed sum—or one five hundredth part?

NO DIRECT ELECTION

OF UNITED STATES SENATORS

Washington, Feb. 28.—Fighting to the last ditch, the old guard in the senate Tuesday succeeded in defeating the measure calling for the direct election of United States senators.

Fifty-four votes were recorded for the resolution providing for a constitutional amendment and thirty-three against it. Two thirds majority was necessary and the resolution was lost.

Those voting in favor of the amendment were:

Bailey, Beveridge, Borah, Bourne, Bradley, Briggs, Bristow, Brown, Burkett, Burton, Carter, Chamberlain, Clapp, Clark, (Wyoming), Clark (Arkansas), Culbertson, Cullom, Cummins, Curtis, Davis, Dixon, Frye, Gamble, Gore, Dupont, Gronna, Guggenheim, Jones, La Follette, McCumber, Martin, Perkins, Rayner, Simmons, Smith (Michigan), Stevenson, Sutherland, Smith (Maryland), Smith (South Carolina), Stone, Swanson, Taylor, Thornton, Warner, Watson, Young, Nelson, Newlands, Nixon, Overman, Owen, Paynter, Piles, Shively, Smith (Maryland)—54.

Against:

Bacon, Bankhead, Brandegee, Bulkeley, Burnham, Burrows, Crane, Depew, Dick, Dillingham, Fletcher, Flint, Foster, Hale, Gallinger, Hey-

burn, Johnston, Kean, Lodge, Money, Lorimer, Oliver, Page, Penrose, Percy, Richardson, Root, Scott, Smoot, Taliferro, Tillman, Warren, Wetmore—33.

By the vote direct election of senators was killed for this session at least.

Thirty-three republicans and twenty-one democrats voted for the measure. The vote is taken to indicate that the progressive wing of the party is gradually gaining the upper hand in the senate, even though the measure was lost.

Taft Appoints Boston Negro to Office.

Washington, Feb. 28.—President Taft today nominated William H. Lewis of Boston, a negro, to be an Assistant Attorney General of the department of justice.

This is the first time a negro has been named for such a prominent position.

Lewis is at present an assistant United States attorney at Boston.

He will succeed John G. Thompson, who resigned recently to take up law practice in Danville, Ill. The place pays \$5,000 a year.

ONLY WOMAN FREEMASON.

English Girl Learned the Order's Secrets and Had to Be Initiated.

A New York Sun correspondent writes as follows: There have been many reports current of the initiation of the only woman Freemason, and the authentic facts appeared only recently in an account given by Brother Condoleok, editor of the Scottish Masonic Historical Dictionary, who made a most careful investigation. The woman admitted into the fraternity was the Hon. Miss Elizabeth St. Leger, daughter of Lord Doneraile and afterward the wife of Richard Aldworth. She was initiated under Warrant 44 of the Lodge Doneraile, Ireland (now dominant) in 1735.

The Hon. Miss Elizabeth St. Leger had been reading in the library of their house near Doneraile and fell asleep. When she awoke she heard conversation in the next room, and as the house was undergoing repairs, she found that by moving a brick from the wall she could see what was happening in the room. It was a meeting of the Masonic lodge. Prompted by curiosity, she removed several bricks from the wall and was thus enabled to witness the whole proceedings without hindrance. When the meeting was over she attempted to escape, but the tiler on guard arrested her. Her father, Lord Doneraile, and the brothers of the lodge were immediately summoned by the tiler. On hearing the circumstances of the case some of the brethren demanded the young lady's life. Others were more lenient. The members of the lodge reassembled and the option was given of submitting to the Masonic ordeal or death. Being asked to decide, acting on her father's advice, she gladly and unhesitatingly accepted the offer and was then duly initiated and became a Freemason.

The story of a woman hidden in a clock and all its romantic details thus vanishes and we possess the true history.

Mrs. Aldworth died in 1773, aged 80, and was buried in the Davies vault in the old St. Finbarre cathedral in the city of Cork. And in the parish church at Doneraile a tablet is erected to her memory. She was a woman of strong mind, inflexible purpose and rectitude of life. She was punctual and scrupulous in her Masonic duties and in all relations of life. The late Col. Cichard William Aldworth, who died in 1890 was in direct descent from this only woman Freemason. He married the eldest daughter of the Earl of Bandon.

GO RIGHT AT IT.

Friends and Neighbors in Ada Will Show You How.

Get at the root of the trouble. Rubbing an aching back may relieve it.

But it won't cure it. You must reach the root of it—the kidneys.

Doan's Kidney Pills go right at it; Reach the cause; relieve the pain. They cure, too, so Ada people say: Mrs. M. S. Kyser, 502 West Main St., Ada, Okla., says: "Last summer I suffered a great deal from a dull heavy ache through my back and hips. I thought it was due to a cold settling on my kidneys and that it would soon disappear. The pains gradually became more intense and other symptoms of kidney trouble set in. I at length decided to give Doan's Kidney Pills a trial, and procured a box. After taking a few doses I felt much better and I continued using this remedy until every symptom of my trouble had disappeared. I am glad to state that I have had no return of kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

CONSTITUTION OF NEW MEXICO APPROVED

Washington, Feb. 28.—The house committee on territories Tuesday unanimously approved the constitution of the new state of New Mexico and recommended its approval by the house. The committee declares it has found the document "to be republican in form, that it makes no distinction in civil or political rights on account of race or color, and that it is not repugnant to the constitution of the United States or the Declaration of Independence."

What Is Profanity?

Every now and then some judge is called upon to declare just what profanity is. Each time a decision is reached something new and interesting is presented. Profanity is an interesting part of speech. It is said that profanity exists only in the speech of civilized peoples. It has been said by students of the profanity of various nations that the savage, who has no way of saying succinctly and picturesquely what he thinks of some one he hates, is forced for lack of words to kill him. Thus the civilized man avers the murderous instinct by being able to let off steam by means of bellicose sounds.

Profanity is more a habit than any thing else. Many of the persons who swear most and use the ugliest words have a way of inserting them into the conversation with a lack of bitterness and nonchalance that robs them of their disagreeable sound. Many men who swear most enthusiastically have been shocked at the amount of suppressed ill-humor shown by the manner in which a girl might say "shucks."

Beyond a doubt the great corrective for a tendency to swear is a sense of humor. On arising some spring morning with a tantalizing wind puffing fitfully from the south, one will often discover that he is in the very worst sort of a humor. Collar buttons escape, shins are bumped, the breakfast toast breaks in the wrong place and the coffee cup slips. Now one can permit these events to disturb the mind to such an extent that they spoil a day, or he can see the humor of it, recognizing the fact that the weather is primarily accountable for these phenomena, and laugh.

Though it is by no means easy, especially for a man, it is highly profitable for the spirit to suppress these nervous riots and try to get along without swearing, because a great many of the things which cause us to lose control of our tempers are really funny.—Austin Statesman.

LEGISLATIVE HAPPENINGS

building fund to aid such consolidated high or graded schools. The bill originally called for \$1,000,000, but this was doubled by Mr. Anthony's amendment. In addition to this the house has set aside Section 33 in Greer county, valued at nearly \$500,000, for the use of rural consolidated schools.

Other Appropriations.

Bills appropriating thousands of dollars were ordered engrossed in the house today, among them being \$155,000 for the home for feeble-minded at Enid; \$78,000 for training school at Paul's Valley, \$100,000 for Chickasha, and \$15,000 for agricultural school at Lawton.

By a vote of 56 to 30 the house passed the Barrett bill creating another district agricultural school at Shawnee.

The senate had under consideration the bill creating the office of attorney for the Charities department known as public defender.

Mr. Peery offered a constitutional amendment authorizing the legislature to pass a graduated income tax law, covering all ownerships in excess of 640 acres. It is proposed to submit it to the people at a special election ordered for April 25.

Another Boost for Oklahoma.

Prof. Chas. N. Gould, State Geologist and Professor of Oklahoma Geology at the state university, has just finished the preparation of an address which he is to deliver before the Southern Commercial congress at Atlanta during the second week in March. It is said to be one of the ablest and biggest boosts for Oklahoma ever conceived and should make the business interests of the south sit up and take notice since it comes from the man who, perhaps before all others, is qualified to speak with authority upon the undeveloped wealth and resources of the newest state. Dr. Gould speaks the first night, President Taft the second, and ex-president Roosevelt the third night. Dr. Gould's subject is "The Relation of the Resources of Oklahoma to the Industries of the South."

Mrs. Caroline Chapman is very ill at the home of her son John Chapman. She is eighty-two years of age and being very feeble, her recovery is extremely doubtful.

Our stock of coal has commenced to arrive. We handle only the BEST grades. Hot stuff especially prepared for us. Lump Coal, McAlister Lump and Nut, we carry a complete stock. We have our own delivery equipment. This insures prompt service and you get coal when you need it. All lump coal is forked to the wagon which insures you clean coal. We buy in large quantities and sell at the very lowest price. Call us up and let us figure on your winter's supply

The advance in price asked you for

White Swan Coffee

is justified because all

High Grade Green Coffees

have advanced. The quality or weight could be reduced and price not changed but we think it to your interest that Net Weight and High Quality Remain.
